

DEIS Target Setting Seminar Spring 2024

Following on from the Department of Education publication, "Looking at DEIS Action Planning for Improvement in Primary and Post-Primary Schools 2022" a number of recommendations were made. It was the experience of those involved in the report that schools were in need of support in connecting gathered data to SMART targets.

This seminar aims to identify best practice relating to establishing SMART targets following on from appropriate data acquisition.

Participants will work with provided data to identify suitable SMART targets for use in this space. There will be opportunities for participants to examine their current targets in light of this workshop, with a view to improving their own DEIS Action Plan upon returning to school. Substitution cover is provided and places are limited to 2 per school.

Date	Venue
Tuesday 16th January 2024	Drumcondra Education Support Centre
Monday 22nd January 2024	Limerick Education Support Centre
