

# Sequence Chart

When a topic involves a sequence of events this organiser can be helpful. It is particularly useful when multiple or sequential factors need to be put in order and remembered.

It is effective for pre-teaching and teaching the causes of an event. Pupils work together to correctly sequence disordered information. They are actively engaged in constructing the learning. They need to discuss and agree on the correct answer(s).

A group can consult with another group if they are unsure about their answers. The teacher may have a rule that s/he only be asked for clarification if another group has been unable to help.

For some students the teacher may provide information in jumbled form to be correctly sequenced.
