At Junior Certificate level the student can:

Apply the skills, knowledge and understanding needed for the measurement of time in everyday situations

Learning Targets - This has been demonstrated by your ability to:

1. Be familiar with the names of days, months and seasons
2. Recall number facts: seconds in a minute, minutes in an hour, hours in a day etc
3. Find a given day or date on a calendar or timetable
4. Tell the time on a clock: the nearest hour, half hour, minute, second
5. Change the hour from a twelve-hour clock to the twenty-four-hour clock
6. Change the hour from a twenty-four-hour clock to the twelve-hour clock
7. Change the time between twelve-hour and digital clocks
8. Estimate the passing of time to the nearest hour, half hour, quarter hour, five minutes and one minute
9. Work out the difference between two given times: on a clock, timetable, calendar and TV guide
10. Draw a time line marking in the important events in your personal life
11. Work out the time needed to leave one place in order to be on time for an appointment
