At Junior Certificate level the student can:

Display a knowledge of basic Wood Craft

Learning Targets - This has been demonstrated by your ability to:

1. Produce a simple project turned between centres (eg Lamp, Vase)
2. Produce a simple project using a face-plate or chuck (eg Bowl, Plate)
3. Identify the four types of woodcarving (incised, chip, relief, sculpture work or curving in the round) and use any one type to produce an artefact
4. Design and decorate a piece of work using pyrography
5. Construct an artefact by use of laminates (e.g. bracket, salad fork, salad spoon)
6. Use inlay to decorate project work
7. Apply fretwork to enhance project work
8. Use veneers to construct a design or pattern (e.g. chessboard, picture)
9. Prepare a project to a suitable standard in preparation for an applied finish
10. Apply an appropriate finish to any project
